And for the Democracy. The Ses believes that the campaign for the election of a Democratic Congress in 1950 and a Democratic President in 1892 should begin on or about the fourth of next March. Tur SUN will be on hand at the beginning and until the end of the most interesting and impor tent political conflict since the war, doing its benest utmost, as ever, to secure the triumph of the Democretic party and the permanent supremacy of the principles held by Jefferson.

Jackson and Pilaci.
The great lact of the year is the return to absolute power of the common enemy of all good Democrats-the political organization for whose overthrow THE SUN fought at the front for \$1'een years, the memorable years of Grant and the Fraud Hayes, and Garfield and Arthur.

It is the same old enemy that Democrats now confront, and he will be intropehed in the same strong position. It has been par-ried once by brave and hopeful figiting. Do you not believe with Tax Sus that the thing can be done again? Wait and see! The hope of the Democracy is in the loyal efforts of a united press, cherishing no memo-

ries of past differences in non-essentials, forgetting everything but the lessons of experi nce, and that victory is a duty.

Probably you know Tur Sun already as ewspaper which gets all the news and print
